Dear Bernard Terrace Families,

I am thrilled to share that our school year is off to a fantastic start! As we dive into the new academic year, it is heartening to see our students actively engaged in their learning journeys, exploring new subjects, and developing essential skills.

In the classrooms, our dedicated teachers are fostering a stimulating environment where curiosity thrives. Students are busy discovering new concepts, tackling challenges, and expanding their knowledge. Whether it is through hands-on projects, collaborative group work, or innovative lessons, each day presents a unique occasion for growth and exploration.

We are extremely excited about all of the activities our students have had the opportunity to take part in while in our interactive science lab. At BTES we believe science labs are crucial for student growth and development because these labs provide valuable learning experiences that deepen understanding of science concepts. In science, students have learned about the wonderful life cycles of Monarch Butterflies and have also taken a liking to the newly installed interactive tables that allow students to engage with all subjects.

We believe that education is a partnership between the school and home. Your support plays a crucial role in your child's success. Home engagement is imperative to student growth and achievement because it fosters a strong support system that encourages academic success. Please encourage your child to embrace the learning process, ask questions, and take advantage of the resources available to them. Visit the Student Academic Resource page on our website to access these valuable resources.

As we progress through the school year, we will continue to keep you informed about our activities and events through our website, the quarterly Panther Roar Newsletter, and social media sites. Visit our website to sign up for the Panther Roar Newsletter. Thank you for being an integral part of our school community. Scan the QR Code below to submit questions, comments, or suggestions. We want to hear from you.

I want to remind everyone that our school is a place where every student is valued and encouraged to reach their potential. *Learning is an adventure – We are on the move!*
